Art Unit: 1722

1. Claims 1-21 are allowed.

2. This application is in condition for allowance except for the following formal matters:

The amendment filed 18 July 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The amendment changes the paragraph beginning at page 4, line 9 of the specification to recite that the gate is made from "silicone rubber" instead of "silicon robber." While it is reasonably clear that "robber" was a typographical error, silicon rubber and silicone rubber are different substances. There is no support in the originally filed disclosure for the gate to be made from silicone rubber, and it cannot just be assumed that the difference was a typographical error. The reciting that the gate as being made from silicone rubber therefore presents new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.
